It is impossible to point to a single monopoly in the United States that has been created or foetered by the Industrial system which is upheld by the Republican party.

It is into this vast field of home trade—at once the creation and the heritage of the American people—that foreign nations are striving by every device to enter. It is into this field that the opponents of our present revenue system would freely admit the countries of Europe—countries into whose internal trade we could not reciprocally enter; countries to which we should be surrendering every advantage of trade, from which we should be gaining nothing in return.

Wages are unjustly reduced when an industrious man is not able by his earnings to live in comfort, educate his children, and lay by a sufficient amount for the necessities of age. The reduction of wagee in inevitably consequent upon throwing our home market open to the world, would deprive them of the power to do this. It will produce a conflict between the poor and the figh, and in the sorrow-fill degradation of labor would plant the seeds of public danger.

The United States has no cause and no derire to engage in conflict with any power on earth, and we may rest in assured confidence that no power desires to attack the United States. phere we should califyate closer relations sieep the grossest enormities of the age and for our common prosperity and adjusted in the same subtle, wriggling servancement we should invite them all to pent with a new head, but the same old join with us in an agreement that, for the inture, all internal troubles in North or South America shall be adjusted by impartial arbitration and not by arms.

past eight years have held up to the Amertial arbitration and not by arms.

While the great powers of Europe are steadily eplarging their colonial domination in Asia and Africa it is the especial province of this country to improve and expand its trade with the nations of America. No field promises so much. No field has been cuttivated so little. Our foreign policy should be an American policy in its broadest and most comprehensive sense—a policy of peace, of friendship, of commercial salargement. cause Democracy nearly wriggled itself into power by hook and crock, that the nation has been sadly cheated, and the only way to redeem itself is to place in only way to redeem itself is to place in power this much aggrieved party whose only policy is the effices and whose only elaim for recognition is the cry reform, which reminds one of a small boy hollowing snakes on a freaty morning, merely to scare somebody? Now had the National Democratic Convention at Chicago appointed a special committee of ten or more of its wiscest solons to define definitely what Democratic reform meant, they would have deserved the gratitude of the American people, for surely a word of such throad meaning, applied by a body of such diversified opinions, must mean much that is mysterious to the most learned politicians. The name of American which belongs to use nour National capacity must always exalt the just pride of patriotism. Oltizenship of the Republic, must be the panoply and saleguard of him who wears it. and saleguard of him who wears it. The American citizen, rich or poor, native or naturalized, white or colored, must every where, walk secure in his personal and civil rights.

The Republicans should never accept a lesser dury, it can never assume a nobler one, than the protection of the humblest man who owes it loyalty—protection at home, and protection which shall follow him abroad, into whatever land he may go upon a lawful orrand.

I recogniz, not without regret, the necessity for speaking of two sections of our common country. But the regret diminishes when I see that the elements which separated them are fast disappearing, Prijudices, have yielded and are yielding white a growing cordislity warms the Southern and the Northern heart alike.

It would be a great claimity to change these influences under which Southern Commonwealths are learning to vindicate civil rights, and adapting theselves to the conditions of political tranquility and industrial progress.

The South needs capital and occupation, not controversy.

The Democratic party shows itself a fee to Southern prosperity by always invoking and urging Southern political consolidation. Such a policy quenches the rising instinct of partiotism in the heart of the Southern pount; it reviews and stimulates prejudice; it substitutes the spirit of barbanc vengeance for the love of peace, progress and harmony.

The public business will be aided by a Southern prosperity by always invoking instinct of partiotism in the heart of the Southern youth; it reviews and stimulates prejudice; it substitutes the spirit of barbanc vengeance for the love of peace, progress and harmony.

Question for Artinmeticians. Gustion for Arithmeticians.

To the Editor of the Intelligencer.

Sin:—The Hon. Charles J. Faulkner, ex-Minister to France, ex-Minister (self-appointed) to Richmond, etc., proposed, in an interview with a Register man, published by Mr. F. in pamphiet and distributed over the State, dated March 29, 1884, to pay to Virginia, by way of settlement of the debt claimed of West Virginia, such sum per annum for the term of thirty-four years as would extinguish bonds to the amount of \$1,000,000, as of the present date, carrying interest at the rate of three per cent. The question is, how much, per annum, must West Virginia pay to Virginia to carry out the Faulkner proposition?

Will some of our learned arithmeticians or teachers give us a solution?

Mr. Faulkner himself figures the amount out at \$40,000 per annum; but in this I think the searned minister. The people have the right to the most efficient agents in the discharge of public business and the appointing power should regard this as the prier and ulterior constitutions.

out at \$40,000 per annum; but in this thick the learned minister is mistaken, i understating the amount. Should the per pie adopt the Faulkner scheme, it is very important to know exactly how much we shall have to pay each year, otherwise the syndicate that would get hold of the bondinght fleeco us severely, ell by reason of Mr. Faulkner's bad arithmetic.
